**Fundraising Goal:
\$250,000**

**Help us raise funds to furnish the new
21-unit YWCA Family Housing Building!**

ywcanwt.ca

The Need

YWCA NWT is answering the call to provide more affordable family housing by building a new 21-unit housing building for families. We hear every day from families who have no housing options - many are sleeping on friends or family's couches, sharing a bedroom with multiple family members, or staying in unsafe situations because there are no housing options available. YWCA NWT has 50+ families on its current housing waitlist and more are added monthly.

The new YWCA family housing building - located conveniently in downtown Yellowknife - not only offers affordable family housing, but also provides wraparound support such as counselling, trauma recovery and support programs, budget guidance, literacy and skills upgrading, job training and placement services, food programming and youth empowerment programs to help families find stability and security in a supportive environment.

While the costs of the building construction are covered, **we need your help to raise funds to furnish family rooms and program spaces.**

Help us give families a fresh start - donate to the Welcome Home Campaign today! Simply select items you would like to purchase from this catalogue, or make a general donation to direct to the area of highest need.

How to Donate

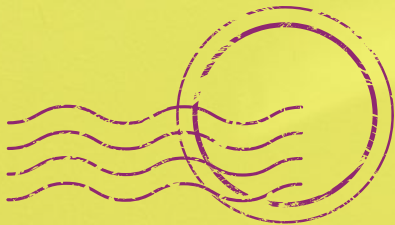

Visit Canada Helps to donate online - select gift items, quantities and have the option to make a tribute.
